Hello,

Hopefully you actually don't really mind my english sentence structure, because i'm from Saudi arabia. I toxified your system with a trojan and im in possession of all of your private files out of your operating-system.

It was set up on a mature website and then you have selected the online video, viewed it, my program instantly got into your os.

Then simply, your web-camera captured you hand fucking, also i captured a vid that you have viewed.

Just after some time it also pulled out every one of your social contact information. If you happen to want me to wipe out your all that i have - send me 750 dollars in bitcoin it's a crypto-currency. This is my btc account transfer address : 1JjJEse3yWwbuWy1yixyp1k5p9cTgTYpK1

At this moment you will have 25hr s. to decide Immediately after i will get the transaction i am going to wipe out this movie and every thing completely. In any other case, please remember that this footage will be sent to all of your contacts.
