RE: International Intelligent Information – U.S. Patent No. 6,110,229

Dear Jinsei Yamaguchi:

Your letter to Bill Gates dated May 30, 2004 has been forwarded to my attention. To avoid future delays, please direct any further correspondence regarding this matter to me.

Microsoft takes intellectual property matters very seriously. I will review this matter carefully and contact you if it appears that there is any conflict between Microsoft's technology and the patent referred to in your letter. To speed the resolution of this issue, please provide me with a claim chart illustrating which claims of your patent you think are relevant and how they relate to the File and Settings Transfer Wizard (FSTW) and User State Migration Tool (USMT) in Windows XP.

Sincerely,

A handwritten signature in blue ink that reads "Dan Christen".
